

Frigerio

HORIZON SOFA

Design Christophe Pillet

Horizon è il nuovo divano componibile modulare su pianale che interpreta con il tratto disinvolto di Pillet la qualità e la cura di Frigerio. Una proposta che riflette l’abitare contemporaneo e il ruolo che oggi è richiesto al divano: un divano relax, elemento protagonista dello spazio sempre più versatile e fluido nell’uso e nelle funzioni. Un programma molto ampio per un divano di design con soluzioni lineari, angolari, più o meno complesse, con elementi trapezoidali asimmetrici, elementi curvi e con la possibilità di avere un divano con una seduta profonda. Sono disponibili due profondità di seduta, per assecondare stili di vita eterogenei ed esigenze funzionali e spaziali in ambito residenziale come contract. Il pianale su cui poggiano gli schienali e i braccioli è sospeso e rivestito in tessuto o in pelle, ad accentuarne il carattere sofisticato. Per il massimo comfort di seduta, Pillet propone in base alla profondità diverse tipologie di braccioli che si armonizzano al design del prodotto. Si aggiunge inoltre la possibilità di inserire nella composizione diversi accessori, posizionabili sia come elementi centrali che terminali, che aumentano la funzionalità del divano, diventando un piano d’appoggio o volumi imbottiti per creare una nuova tipologia di bracciolo.

Horizon is the new modular sectional sofa on platform which interprets the quality and care of Frigerio with Pillet’s nonchalant style. The proposal reflects the contemporary living and the position, which is today required to the sofa: a relax sofa, leading character of the space more and more versatile and fluid in the use and functions. A wide range of for a design sofa with linear, corner, more or less complex solutions, with asymmetrical trapezoidal elements, curved elements and with the possibility to have a deep seat sofa. There are two seat depths available to suit heterogeneous lifestyles and functional and spatial requirements in both residential and contract settings. The platform on which the backrests and armrests are fitted is covered in fabric or leather to accentuate its sophisticated character. For maximum seating comfort, Pillet proposes different kind of armrests depending on the depth harmonizing with the product’s design. There is also the possibility to insert in the composition several accessories, which can be positioned both as central and terminal elements, which increase the functionality of the sofa, becoming a support surface, or padded volumes to create a new kind of armrest.
